SUMMARY

I am a Computer Science graduate specializing in **Java** and **Spring Boot** development, as well as Full Stack Web Development using the **MERN** stack. I have successfully completed my training in both fields and am now fully committed to working as a professional developer. Throughout my training, I contributed to multiple projects, taking on various roles within development teams, which allowed me to gain valuable hands-on experience.

I bring strong interpersonal and communication skills, developed through successful collaborations and leadership roles in various projects. I am eager to leverage my extensive academic training and practical experience in a dynamic entry-level IT position, where I can contribute effectively while continuously expanding my expertise.

TECHNICAL SKILLS

- **Frontend:** React , Redux , HTML , CSS , JavaScript , Tailwind , Bootstrap , Figma
- **Backend:** Java , Spring Framework (Boot, Data, Security, AOP, MVC, ...) , Node.js , Express.js
REST APIs , ORMs (JPA/Hibernate, Sequelize)
- **Databases:** Oracle DB (SQL, PLSQL) , MongoDB , MySQL, PostgreSQL , Firebase
- **Tools :** Git , GitHub , Postman , IntelliJ IDEA , VS Code , Discord , Trello

SOFT SKILLS

Problem Solving	Time Management	Attention to Detail
Critical Thinking	Team Collaboration	Presentation skills
Fast & Self Learning	Communication	Adaptability

EDUCATION

Full-Stack Development Bootcamp
Orange Coding Academy

Dec 2024 - Present

Master Spring Boot Framework Course
Java Mastery Academy

Nov 2023 - June 2024

Bachelor of Science in Computer Science
Hashemite University

Oct 2020 - Oct 2024

EXPERIENCE

WORK EXPERIENCE

Full Stack Web Development Trainee
Orange - Coding Academy

Dec 2024 - Present

- Developing **Full-stack** applications using the **MERN stack** (MongoDB, Express.js, React, Node.js) alongside HTML, CSS, and JavaScript to build dynamic and scalable web solutions.
- Building responsive and visually appealing **Front-end** interfaces with React, Redux, Tailwind, and Bootstrap, ensuring a seamless user experience.
- Designing and consuming **RESTful APIs** with Node.js, Express.js, and Sequelize, optimizing **Backend** performance and database interactions.
- Working with multiple **Databases**, including MongoDB, PostgreSQL, and Firebase, to efficiently manage and store application data.
- Delivered **10 full-stack web projects**, applying skills to real-world scenarios. Developed scalable, maintainable, and high-performing applications.

Java Web Developer Intern
Xocialive - Software Innovation

Jun 2024 - Sept 2024

- Mastered core **Java** concepts (OCA curriculum).
- Gained hands-on experience with **Spring Framework** (Boot, Data, MVC, AOP, Security).
- Developed **RESTful web** applications with Spring Boot, and Postman.
- Optimized **database** operations using Spring Data, Hibernate, and **Oracle DB**.
- Implemented **authentication & authorization** using Spring Security & JWT for user access control.

PROJECTS
12 PROJECTS

1- Digital Games Store System
GitHub Repository: [GamesStore-System](#)

2025

- Description:** An e-commerce platform specializing in digital games, gaming accounts, and related services, offering instant delivery for digital products Designed to enhance business reach, customer trust, and profitability.
- Tools:** Node JS , Express JS , React JS, Tailwind , Mongo DB

2- AI-Joud Platform
GitHub Repository: [Charity-Project](#)

2025

- Description:** AI-Joud is an online charity platform enabling secure, hassle-free donations to debtors and those in need. It features role-based access (Admin, Donor, Beneficiary), JWT authentication, and PayPal integration for seamless transactions.
- Tools:** Node JS , Express JS , React JS, Tailwind , PostgreSQL , Sequelize

3- Jawa Clinic Appointments System
GitHub Repository: [JawaClinic](#)

2024

- Description:** A clinic appointment system, enabling role-based access for scheduling, visit documentation, staff management, and pricing. Implemented a multi-step booking system, allowing patients to schedule appointments and doctors to document visits efficiently.
- Tools:** Java, Spring Boot, Oracle DB, React

4- Dept Book System
GitHub Repository: [AccuBook](#)

2024

- Description:** A platform for small and medium businesses to manage debts, transactions, and financial records while enabling product showcasing and easy sharing with customers.
- Tools:** Java, Spring (Boot , Data , AOP , Security) , Oracle DB, Postman
