SUMMARY

I am a Computer Science graduate with a focus on Java and Spring Boot development, currently expanding my expertise as a Full Stack Web Development Trainee at Orange.

EXPERIENCE

WORK EXPERIENCE

Full Stack Web Development Trainee

Dec 2024 - Present

Orange - Coding Academy

- Gaining hands-on experience in full-stack development using the MERN Stack (MongoDB, React, Node.js), along with HTML, CSS, and JavaScript.
- Implementing user authentication and real-time features using Firebase.
- Building responsive and dynamic front-end interfaces with React, styled with CSS and HTML.

Java Web Developer Intern

Jun 2024 - Sept 2024

Xocialive - Software Innovation

- Mastered core Java concepts (OCA curriculum).
- Gained hands-on experience with Spring Framework (Boot, Data, MVC, AOP, Security).
- Developed RESTful web applications with Spring Boot, and Postman.
- Optimized database operations using Spring Data, Hibernate, and Oracle DB.

PROJECTS EXPERIENCE

Digital Games Store System

2025

Work Project (Full-Stack Development)

- Developed a dynamic website for purchasing and managing digital games.
- Implemented user registration, game browsing, and secure payment integration.
- Built the back-end using NodeJS and MongoDB for data management.
- Designed a responsive front-end with HTML, CSS, JavaScript and React.

Jawa Clinic Appointments System

2024

Graduation Project (Back-End Development)

- Developed the back-end for a clinic appointment system using Java Spring Boot and Oracle DB.
- Implemented role-based APIs and features for scheduling, visit documentation, staff management, and pricing.
- Built multi-step appointment booking logic, enabling patients to schedule and doctors to document visits.

Dept Book System

2024

Work Project (Back-End Development)

- Developed the back-end with Java Spring Boot and Oracle DB for managing transactions and client records.
- Secured the application using Spring Security and JWT for authentication and authorization.

EDUCATION

Bachelor of Science in Computer Science

2020 - 2024

Hashemite University

Master Spring Boot Framework Course

2023 - 2024

Java Mastery Academy

ADDITIONAL INFORMATION

- **Skills (Programming):** Java, Spring Framework (Boot, Data, Security, AOP, MVC, ...), REST APIs, JPA/Hibernate, Node.js, MongoDB, MySQL, Oracle DB (SQL, PLSQL), React, Next.js, JavaScript, HTML, CSS, Firebase, WordPress, Postman, Swagger, IntelliJ IDEA, Figma.
- **Skills (Soft):** Problem Solving, Critical Thinking, Time Management, Communication & Presentation Skills
