SUMMARY

I am a Computer Science graduate with a focus on Java and Spring Boot development, seeking opportunities to apply my skills in software development and web applications.

EXPERIENCE

WORK EXPERIENCE

Java Web Developer Intern
Xocialive - Software Innovation

Jun 2024 - Sept 2024

- Mastered core Java concepts from the OCA (Oracle Certified Associate) curriculum.
- Gained extensive hands-on experience with the Spring Framework (Boot, Data, MVC, AOP, Security) through working on various projects and tasks.
- Developed and maintained Java-based web applications using Spring Boot, focusing on RESTful services and SOAP APIs.
- Optimized database operations using Spring Data, Hibernate, and Oracle DB.
- Managed API documentation with Swagger and performed testing using Postman.

PROJECTS EXPERIENCE

Jawa Clinic Appointments System
Graduation Project (Back-End Development)

2023 - 2024

- Developed the back-end of a clinic appointment system using Java Spring Boot and Oracle DB.
- Implemented role-based APIs to support 4 user categories: patients, doctors, receptionists, and managers.
- Built the logic for appointment scheduling (multi-step appointment booking cycle).
- Enabling patients to book appointments and view visit details, while doctors document diagnoses and services.
- Created features for managing clinic staff, services, and pricing.

Dept Book System
Work Project (Back-End Development)

2024

- developing the back-end of a Dept Book System using Java Spring Boot and Oracle.
- Built features to create clients, track transactions (advance or debt), and manage financial records.
- Implemented user authentication and authorization, allowing users to log in and manage their accounts securely.
- Focused on ensuring data consistency and accuracy while handling transactional data in the system.

EDUCATION

Bachelor of Science in Computer Science
Hashemite University

2020 - 2024

Master Spring Boot Framework Course
Java Mastery Academy

2023 - 2024

ADDITIONAL INFORMATION

- **Skills (Programming):** Java , Spring Framework (Boot, Data, Security, AOP, MVC, ...), Oracle DB (SQL, PLSQL) , Postman, Swagger, IntelliJ IDEA, REST APIs, SOAP APIs, Java 8, JPA/Hibernate.
